

## CONDITIONS FOR THE ACCESS AND USE OF PRELIMINARY AEOLUS PRODUCTS

Conditions for the Aeolus Calibration and Validation (Cal/Val) Principal Investigators (PIs), co-PIs and Aeolus Scientific Study teams to access and use the full collection Aeolus data:

- Access to the full collection of Aeolus products at the ADDF, Cal/Val FTP servers and the VirES platform is only granted to the PIs and co-PIs of Aeolus Cal/Val AO projects and Aeolus Scientific Study teams (under ESA contract), formally accepted by ESA.
- The Cal/Val AO project or Science Study PI is responsible for distributing the data to the proposal team members. The PI is responsible to ensure that all conditions for use are applicable, communicated and agreed by the team members, and that the data shall not be distributed to others. The team members may also request data access directly by accepting the terms of reference and returning of this form.
- Aeolus Cal/Val and Study Team PIs agree to report their results at ESA Cal/Val workshops, at the study progress meetings , and in dedicated Cal/Val and study reports to ESA.
- Sharing, publishing and presentation of Aeolus data (other than the publicly available L1B, L2B and L2C wind products following baseline B09), data quality and Cal/Val results outside the Cal/Val AO and Scientific Study teams is not allowed, except for reports to ESA, presentations at ESA Aeolus Cal/Val workshops, for Cal/Val and study team internal discussions, via the [Aeolus Cal/Val confluence page](#), or following special requests via email to [info@aeolus-calval.esa.int](mailto:info@aeolus-calval.esa.int) and explicit authorization by ESA.
- The above listed conditions apply from the first access to the Aeolus data until further notice. Updates to the conditions may be communicated at upcoming Aeolus Cal/Val & Science workshops and/or via email.

Please accept the terms by filling out the fields below and return it to [eohelp@esa.int](mailto:eohelp@esa.int)
